

Help mobilise young peoples' voices in careers education!

The Careers & Enterprise Company is looking to recruit a Youth Advisory Group (YAG) that reflects the diversity of young people across England, aged 14-25 to challenge and guide CEC to embed youth voice in everything they do. Work alongside CEC to inspire change and bring more young voices into the conversation to help improve careers education for everyone in the system. It doesn't matter where you're from, your background, or how much experience you have with careers education - your voice matters, and we want to hear it.

YAG members say joining gives you the opportunity to:

- ✓ Engage in a safe and collaborative space where your input is truly valued
- ✓ Work as a team to develop your ideas into actionable results to create positive outcomes
- ✓ Attend events and share your experiences
